Publications

- DataHub, A comprehensive data integration service for Natural History Museum at SPNHC conference 2022 & 2023. **MfN**
- Conducted a high-quality full genome de novo assembly of "*Catharus ustulatus*" as part of the Vertebrate Genome Project (VGP), in collaboration with Sanger Institute. **BeGenDiv**
NCBI link: www.ncbi.nlm.nih.gov/bioproject/562193
- Data pipeline optimization and testing for Vertebrate Genome Project (VGP) genome assembly on DNA NEXUS. **VGP**
Paper: <https://www.nature.com/articles/s41586-021-03451-0>
- Running metabarcoding pipelines on eDNA samples - BIBS and IGB research on eDNA in Berlin-Brandenburg for water ecosystem. **BeGenDiv**
- Clio: A comprehensive and integrated database of DNA barcodes for metabarcoding and metagenomics pipelines. **IZW**
